

There absolutely should be a national list, but it should not be a no call list, it should be a allowed call list. It should require no effort on my part to stop receiving telemarketing calls. The list should be required of any company/organization calling to solicit money, sales, or optinions. It should be extended to computer, voice and fax calls. There should be no excemptions to the list.

No telemarketing calls should be allowed to go to a cell phone or pager. I am paying by the minute for my cell phone, it is not fair that I have to pay for a call I did not request.
